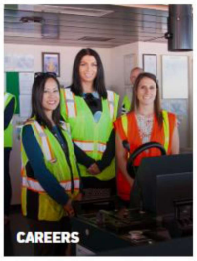
/ COMMUNITY / EDUCATION

EXPLORE EDUCATION RESOURCES

Find a career, apply for an internship or scholarship, and find out more about the Port's educational programs.



EDUCATING A SKILLED WORKFORCE

The Port of Long Beach is committed to creating and supporting programs that advance development of a skilled workforce in international trade, goods movement and related professions. In 2018, the Port became the first industry partner to join The Long Beach College Promise. The Promise serves as a bridge between Long Beach educational institutions and the international trade sector.

Strengthening the Port's partnerships with the Long Beach Unified School District, Long Beach City College and California State University, Long Beach, is key to educating students at all levels about the importance of the Port and international trade and creating a workforce pipeline to related industries by providing learning and training opportunities for students and educators. Port programs also support tools, materials and experiences that enhance in-classroom curriculum while expanding student knowledge of international trade.
